PROGRAMME OVERVIEW

Philosophers would describe the works of the world as a running mechanism spun by the mechanisms of business transactions. And a leader in the world of business is a leader in the world per se. As Jack Welch, one of the world's most influential CEO's once articulated, "Good business leaders create a vision, articulate the vision, passionately own a vision, and relentlessly drive it to completion." IUMW strives to perfect the next generations of visionary business professionals.

IUMW's Faculty of Business and Law conducts programmes from undergraduate levels right up to the postgraduate levels. The Faculty is headed by some of the most illustrious industrial heroes both of the local and international business arenas. In lieu with our aim to be a global university the business programmes at IUMW are meticulously designed to produce high-performing individuals that can succeed in any context across the world.

Our Bachelor of Business Administration (Hons) in Islamic Finance will grant you the opportunity to study the success of Islamic finance and its unique approach in current economic climates. Transform into career-progressive individuals with the tools you require to advance as global business professionals.
